Description / Agenda

SAVE THE DATE

California Bay-Delta Ecosystem

As one of the President's focus on the five major ecosystems, CEQ is hosting DOI and NOAA for an interagency briefing on the latest developments surrounding the California Bay-Delta Conservation Plan. As all know, Secretary Salazar along with CA Governor Brown outlined a path forward for Bay Delta Conservation Plan on July 25th and has since been working on key elements of a proposal to achieve the dual goals of a reliable water supply for California and a healthy California Bay Delta ecosystem.

Please join us on Tuesday, November 6th at 2 PM for an update as well as to discuss how agencies can coordinate actions around the BDCP.

Agenda to follow.

Jay Jensen
Associate Director - Land & Water Ecosystems
Council on Environmental Quality
Executive Office of the President
730 Jackson Place
Washington, D.C.
